About

Creative and results-driven Front-End Developer with 5+ years of experience building high-performance, responsive, and accessible web applications using JavaScript, TypeScript, React, Next.js, and Vue.js. Skilled in state management (Redux, TanStack, Context API), reusable component design, CI/CD pipelines, and test-driven development. Passionate about delivering fast, scalable, and visually polished user experiences through clean architecture and performance optimization.

Professional Experience

The Lab Group – Frontend Developer (Feb 2022 – Oct 2025)

- Developed and maintained 4+ large-scale production-grade applications using React, TypeScript, and Next.js.
- Achieved 99% cross-browser compatibility and 100% type safety through robust TypeScript implementation.
- Created reusable hooks and component libraries, improving dev efficiency by 30%.
- Built CI/CD pipelines with GitHub Actions + Firebase for zero-downtime deployments.
- Integrated Redux Toolkit and React Context for scalable app-wide state management.
- Improved unit test coverage to 93% using Jest and Vitest.
- Enhanced mobile performance by 17% using SCSS optimization and lazy loading.
- Integrated REST APIs and AI-driven personalization tools to improve UX engagement.

Fiverr – Freelance Full-Stack Engineer (Jan 2020 – 2022)

- Completed 35+ frontend projects (average rating: 4.9/5) for global clients.
- Built modern UI/UX landing pages using Tailwind CSS, Vue.js, React, and Three.js (3D visualizations).
- Automated workflows using Python scripts for repetitive frontend tasks.
- Implemented responsive, SEO-optimized designs ensuring 95+ Lighthouse performance scores.
- Converted Figma/XD mockups into pixel-perfect, production-ready web applications.
- Built Firebase + Node.js backends for authentication and real-time updates.

Freelance – JavaScript Developer (Jan 2019 – 2020)

- Delivered 5+ responsive web apps focusing on usability and performance.
- Refactored legacy codebases, reducing bugs by 40% and improving load times by ~1.5s.
- Contributed to open-source and practiced Git/GitHub collaboration workflows.
- Built custom Webpack/Vite configurations for optimized deployment builds.

Technical Skills

- **Frontend**: React, Next.js, Vue.js, TypeScript (ES6+), JavaScript, React Hooks, Three.js
- **State Management**: Redux Toolkit, TanStack Query, Context API
- **Styling**: Tailwind CSS, SCSS, CSS Modules, Responsive Design
- **Testing**: Jest, Vitest, React Testing Library
- **Dev Tools**: Git, GitHub, Vite, Webpack, Postman
- **CI/CD & Hosting**: GitHub Actions, Firebase, Netlify, Vercel
- **Backend**: Node.js, Express, Firebase Auth, Firestore
- **Other**: REST APIs, GraphQL, SEO, Accessibility (WCAG), Agile/Scrum, Docker
